

## WHERE CAN CARBON MONOXIDE ACCUMULATE?

**CO May Accumulate in any of these places**

Inadequately ventilated canvas enclosures.

Exhaust gas trapped in enclosed places.

Blocked exhaust outlets.

Another vessel's exhaust.  
**CO** from the boat docked next to you can be just as deadly.

"Station wagon effect" or back drafting.

At slow speeds, while idling, or stopped. Be aware that **CO** can remain in or around your boat at dangerous levels even if your engine or the other boat's engine is no longer running!
